

CSE332 INDUSTRIAL ETHICS & LEGAL ISSUES

MCQ MASTER NOTES (EXAM CRACK VERSION)

Goal: Read once in 2-3 hours and score maximum in a difficult 60-MCQ paper.

UNIT 1 : ETHICS

Ethics

Definition

Ethics is a system of moral principles that helps people distinguish right from wrong and guides behavior.

Keywords

- Moral principles
- Right and wrong
- Decision making
- Trust
- Responsibility

Ethics focuses on

- Personal behavior
 - Professional behavior
 - Social responsibility
-

Importance of Ethics

1. Builds trust
 2. Encourages honesty
 3. Improves decision making
 4. Creates positive work culture
 5. Promotes fairness
 6. Increases accountability
-

Integrity

Definition

Doing the right thing even when no one is watching.

Features

- Honesty
- Accountability
- Consistency
- Moral courage
- Self-respect

Importance

- Builds credibility
- Creates trust
- Enhances goodwill
- Prevents unethical practices
- Ensures long-term success

Business Ethics

Definition

Application of ethical principles in business activities and decision making.

Need for Business Ethics

- Survival of business
- Business growth
- Customer confidence
- Goodwill creation
- Social responsibility
- Better stakeholder relationships

Improving Corporate Ethics

Methods:

- Ethical leadership
- Ethics training
- Clear guidelines
- Open communication
- Accountability measures

- Reward ethical behavior
-

Ethical Work Environment

Features:

- Ethical leadership
 - Fair treatment
 - Employee support
 - Transparency
 - Respect
 - Ethical reporting system
-

Ethical Decision Making Process

Step 1: Identify problem

Step 2: Develop problem statement

Step 3: Identify alternatives

Step 4: Evaluate alternatives

Step 5: Select best alternative

Step 6: Implement decision

Step 7: Evaluate results

MCQ FACTS

Ethics = Moral principles

Integrity = Doing right when nobody watches

Business Ethics = Ethics applied in business

Ethical Decision Making = 7 steps

Trust is the foundation of ethics

UNIT 2 : ETHICS IN INFORMATION TECHNOLOGY

Ethics in IT

Application of ethical principles while developing, managing and using information technology.

Ethical Concerns in IT

- Copyright violation
- Hacking
- Spam emails
- Plagiarism
- Privacy invasion
- Data misuse

Professional

A profession requires:

- Specialized knowledge
- Training
- Experience
- Judgment

Professional Employee

Characteristics:

- Specialized knowledge
- Independent judgment
- Accountability
- Responsibility

Are IT Workers Professionals?

YES because:

- Specialized knowledge
- Accountability
- Ethical behavior
- Continuous learning

Common Ethical Issues for IT Users

Privacy Concerns

Unauthorized collection or use of data.

Cybersecurity Risks

Threats from hackers, malware, ransomware.

Misuse of IT Resources

Using organizational resources improperly.

Surveillance & Monitoring

Excessive monitoring of users.

Business Software Alliance (BSA)

Full Form

Business Software Alliance

Purpose

- Prevent software piracy
 - Protect software copyrights
 - Investigate illegal software use
-

Supporting Ethical Practices

- Education and awareness
 - Security controls
 - Access control
 - Ethical AI
 - Organizational policies
-

MCQ FACTS

BSA = Business Software Alliance

Software piracy investigated by BSA

Privacy = Most common ethical issue

IT Professionals require continuous learning

UNIT 3 : INTELLECTUAL PROPERTY RIGHTS (IPR)

Intellectual Property Rights

Definition

Legal rights granted to creators over their creations.

Purpose

- Protect innovation
 - Encourage creativity
 - Prevent unauthorized use
 - Promote development
-

TYPES OF IPR

1. Patent

Definition

Exclusive legal right granted for an invention.

Protects

- Inventions
- New processes
- Machines
- Methods

Duration

20 Years

Features

- Territorial right
- Monopoly right
- Requires disclosure

Patentability Conditions

1. Novelty
 2. Inventive Step
 3. Industrial Applicability
-

Novelty Means

Invention should not be:

- Published earlier
 - Publicly known
 - Previously used
 - Previously patented
-

Who Can Apply For Patent?

- True inventor
 - Assignee
 - Legal representative
-

Patent Application Types

- Ordinary Application
 - Convention Application
 - Patent of Addition
 - Divisional Application
 - PCT International
 - PCT National
-

Patent Documents

Form 1 → Patent Application

Form 2 → Specification

Form 3 → Statement & Undertaking

Form 5 → Inventorship Declaration

Form 26 → Power of Attorney

Copyright

Definition

Right of creator to reproduce original work.

Protects

- Books
- Music

- Films
 - Software
 - Art
 - Websites
-

Trademark

Definition

Sign used to distinguish products or services.

Product Mark

Used for products.

Examples:

- Pepsi
- Maggi
- Philips

Symbol:

TM or ®

Service Mark

Used for services.

Examples:

- Netflix
- FedEx
- American Airlines

Symbol:

SM

Collective Mark

Represents group membership.

Example:

CA

CPA

Certification Mark

Indicates quality standards.

Examples:

- ISI
 - Agmark
 - Woolmark
 - Energy Star
-

Shape Mark

Protects 3D shape of products.

Trade Secret

Definition

Confidential information providing business advantage.

Requirements

- Secrecy
- Commercial value
- Protection efforts

Examples:

- Coca-Cola Formula
 - Google Algorithms
-

Geographical Indication (GI)

Definition

Indicates product's geographical origin.

Examples:

- Darjeeling Tea
- Basmati Rice

Benefits:

- Protects local products
 - Prevents misuse
 - Promotes regional identity
-

Design Rights

Protect:

- Shape
 - Pattern
 - Colour
 - Appearance
-

MCQ FACTS

Patent = 20 Years

TM = Trademark

SM = Service Mark

CA = Collective Mark

ISI = Certification Mark

GI = Geographical Indication

Patent protects invention

Copyright protects creative work

Trademark protects brand identity

Trade Secret protects confidential information

UNIT 4 : STARTUPS & GOVERNMENT SCHEMES

Startup Definition (DPIIT)

Must satisfy ALL:

- Less than 10 years old
 - Turnover $\leq$ ₹100 crore
 - Innovation based
 - Not formed by splitting business
-

Startup India

Launch Date:

16 January 2016

Objectives:

- Innovation
 - Entrepreneurship
 - Job creation
-

Startup India Benefits

Tax Benefits

- 3 year tax holiday
- Capital gains exemption

Funding Benefits

Fund of Funds

₹10,000 Crore

Patent Benefits

80% patent fee rebate

50% trademark fee rebate

Other Benefits

- Easy registration
 - Self certification
 - Fast exit
-

Government Startup Schemes

MUDRA

Loan up to ₹10 lakh

Types:

- Shishu
 - Kishor
 - Tarun
-

Stand-Up India

Loan:

₹10 lakh – ₹1 crore

Target:

- Women
 - SC/ST
-

SIDBI Fund of Funds

₹10,000 crore

Seed Fund Scheme

Up to ₹50 lakh

Atal Innovation Mission

Supports innovation and incubation.

NASSCOM 10000 Startups

Started:

2013

Objective:

Support 10,000 startups

Focus Areas:

- AI
- SaaS
- FinTech
- EdTech
- HealthTech

Success Example:

Freshworks

STP

Full Form:

Software Technology Parks

Year:

1991

Benefits:

- Tax incentives
 - Software exports
 - Infrastructure support
-

SEZ

Full Form:

Special Economic Zone

Year:

2005

Benefits:

- Tax benefits
 - Export promotion
 - Foreign investment
-

MCQ FACTS

Startup India = 2016

NASSCOM 10000 = 2013

STP = 1991

SEZ = 2005

Patent Rebate = 80%

Trademark Rebate = 50%

Fund of Funds = ₹10,000 crore

UNIT 5 : IT INDUSTRY & BUSINESS PLAN

IT

Information Technology

Includes:

- Hardware
 - Software
 - Networking
-

ITES

Information Technology Enabled Services

Includes:

- BPO
 - KPO
 - LPO
-

Product Based Companies

Examples:

- Microsoft
- Google
- Apple
- Adobe

Characteristics:

- Own products
 - High R&D
 - Scalable
-

Service Based Companies

Examples:

- TCS
- Infosys
- Wipro
- Accenture

Characteristics:

- Client projects

- Service contracts
-

Hybrid Companies

- Microsoft
 - Amazon
-

NASSCOM

National Association of Software and Services Companies

Functions:

- Policy making
 - Skill development
 - Industry support
-

STPI

Software Technology Parks of India

Functions:

- Export promotion
 - Startup support
 - Infrastructure
-

Business Plan Components

1. Executive Summary
 2. Company Description
 3. Market Analysis
 4. Marketing Plan
 5. Operational Plan
 6. Financial Plan
 7. Appendices
-

Mission vs Vision

Mission = Present purpose

Vision = Future goal

Financial Plan

Includes:

- Profit & Loss Statement
 - Cash Flow Statement
 - Break-even Analysis
 - Balance Sheet
-

Marketing Plan

Includes:

- Target audience
 - Promotion strategy
 - Competitor analysis
 - KPIs
-

MCQ FACTS

ITES includes BPO

Microsoft = Product + Service

Amazon = Product + Service

Mission = Present

Vision = Future

Break-even = No Profit No Loss

UNIT 6 : CYBER SECURITY & CYBER LAWS

Cyber Crime

Illegal activity involving:

- Computers
- Networks
- Internet
- Digital devices

Types of Cyber Crime

1. Cyber Fraud
2. Hacking
3. Data Breach
4. Cyber Bullying
5. IP Theft
6. Cyber Terrorism

Cyber Crime Statistics

Cybercrime Cost by 2025:

\$10.5 Trillion

Cyber Attack Frequency:

Every 39 seconds

India Cybercrime Cases (2023):

50,000+

Need for Cyber Law

- Prevent cybercrime
- Protect users
- Secure transactions
- Protect privacy
- Regulate evidence

Important Cyber Laws

IT Act

Year:

2000

India's primary cyber law

DPDP Act

Year:

2023

Protects personal data

National Cyber Security Policy

Year:

2013

Protects national cyber infrastructure

IPC Sections

419 → Cheating

420 → Fraud

500 → Defamation

354D → Cyber Stalking

Information Security Laws

- Data Protection Laws
 - Cybercrime Laws
 - Privacy Laws
 - IP Laws
 - Compliance Laws
-

Ethics in Information Security

- Privacy Ethics
 - Hacking Ethics
 - AI Ethics
 - Corporate Ethics
 - Whistleblowing Ethics
-

Cyber Security Tools

Network Security

- Wireshark
- Nmap
- Snort
- Tcpdump

Pen Testing

- Kali Linux
- Metasploit
- Burp Suite
- Nessus

Forensics

- Autopsy
- FTK Imager
- Volatility

SIEM

- Splunk
- IBM QRadar
- ELK Stack

Important Cyber Cases

Colonial Pipeline

Year:

2021

Ransom:

\$4.4 Million

Lessons:

- MFA
- Network Segmentation

Equifax Breach

Year:

2017

Affected:

147 Million People

Cause:

Unpatched Vulnerability

FINAL RAPID REVISION

Patent = 20 Years

Startup India = 2016

NASSCOM 10000 = 2013

STP = 1991

SEZ = 2005

IT Act = 2000

DPDP = 2023

Cyber Policy = 2013

Patent Rebate = 80%

Trademark Rebate = 50%

Fund of Funds = ₹10,000 Crore

Seed Fund = ₹50 Lakh

MUDRA = ₹10 Lakh

Stand-Up India = ₹10 Lakh–₹1 Crore

Cybercrime Cost = \$10.5 Trillion

Cyber Attack = Every 39 Seconds

Section 420 = Fraud

Section 500 = Defamation

Section 354D = Cyber Stalking

Microsoft = Hybrid Company

Amazon = Hybrid Company

Patent → Invention

Copyright → Creative Work

Trademark → Brand

Trade Secret → Confidential Information

GI → Regional Product

CSE332 MOCK TEST – 100 MCQs

UNIT 1 & 2 (Q1–Q20)

1.

Ethics primarily deals with:

- A) Financial management
- B) Moral principles
- C) Marketing strategies
- D) Software development

2.

Integrity means:

- A) Following company rules only
- B) Doing the right thing even when no one is watching
- C) Obeying managers
- D) Following legal requirements only

3.

Which is NOT a characteristic of integrity?

- A) Honesty
- B) Accountability
- C) Deception
- D) Consistency

4.

Business ethics mainly focuses on:

- A) Increasing profits only
- B) Ethical conduct in business
- C) Employee salaries
- D) Production cost reduction

5.

Which is NOT a step in ethical decision making?

- A) Identify alternatives
- B) Evaluate alternatives
- C) Increase profits
- D) Implement decision

6.

The foundation of ethical behavior in organizations is:

- A) Marketing
- B) Integrity
- C) Taxation
- D) Accounting

7.

A profession generally requires:

- A) Specialized knowledge
- B) Political influence
- C) Family business
- D) Government funding

8.

Which organization combats software piracy?

- A) NASSCOM
- B) STPI
- C) BSA
- D) SIDBI

9.

BSA stands for:

- A) Business Security Association
- B) Business Software Alliance
- C) Business Services Alliance
- D) Basic Software Agency

10.

Which is an ethical issue in IT?

- A) Cybersecurity risks
- B) Privacy concerns
- C) Misuse of resources
- D) All of the above

11.

Unauthorized collection of personal information relates to:

- A) Privacy
- B) Patent
- C) Trademark
- D) Branding

12.

Monitoring employee activities excessively is called:

- A) Plagiarism
- B) Surveillance
- C) Piracy
- D) Copyright

13.

Which of the following is NOT an ethical practice?

- A) Transparency
- B) Accountability
- C) Data theft
- D) Fairness

14.

Ethics training is used to:

- A) Improve profits
- B) Improve corporate ethics
- C) Increase taxes
- D) Reduce salaries

15.

The process of choosing the most ethical option is:

- A) Corporate planning
- B) Ethical decision making
- C) Market analysis
- D) Financial planning

16.

Specialized knowledge and accountability are characteristics of:

- A) Amateur workers
- B) Professional employees
- C) Investors
- D) Customers

17.

The major objective of business ethics is:

- A) Tax reduction
- B) Goodwill and trust
- C) Product design
- D) Auditing

18.

Which is NOT a common ethical issue?

- A) Privacy
- B) Cybersecurity
- C) Piracy
- D) Agriculture

19.

Ethical behavior helps organizations:

- A) Lose reputation
- B) Build trust
- C) Increase fraud
- D) Avoid customers

20.

Ethics mainly distinguishes:

- A) Profit and loss
- B) Right and wrong

- C) Inputs and outputs
 - D) Assets and liabilities
-

UNIT 3 – IPR (Q21–Q40)

21.

IPR stands for:

- A) International Patent Rights
- B) Intellectual Property Rights
- C) Industrial Product Rights
- D) Intellectual Patent Registration

22.

Which IPR protects inventions?

- A) Copyright
- B) Trademark
- C) Patent
- D) GI

23.

Patent validity is:

- A) 10 years
- B) 15 years
- C) 20 years
- D) 25 years

24.

Patent rights are:

- A) Universal
- B) Territorial
- C) Unlimited
- D) Global

25.

Novelty means an invention should:

- A) Be famous
- B) Be expensive
- C) Not be previously known
- D) Be patented abroad

26.

Which is NOT patentable?

- A) Novel invention
- B) Inventive process
- C) Previously published invention
- D) New machine

27.

Copyright protects:

- A) Inventions
- B) Creative works
- C) Geographical products
- D) Trade secrets

28.

Which is protected under copyright?

- A) Novel
- B) Film
- C) Music
- D) All of the above

29.

Trademark protects:

- A) Business identity
- B) Inventions
- C) Research papers
- D) Government policies

30.

TM stands for:

- A) Trade Mark
- B) Trade Method
- C) Technical Mark
- D) Trademark Model

31.

SM is used for:

- A) Shape mark
- B) Service mark
- C) Standard mark
- D) Security mark

32.

Netflix is an example of:

- A) Product mark
- B) Service mark
- C) Collective mark
- D) Shape mark

33.

CA is an example of:

- A) Certification mark
- B) Product mark

- C) Collective mark
- D) Service mark

34.

ISI is:

- A) Collective mark
- B) Certification mark
- C) Service mark
- D) Product mark

35.

Trade secrets require:

- A) Publication
- B) Registration
- C) Secrecy
- D) Advertising

36.

Which is a GI product?

- A) Microsoft
- B) Darjeeling Tea
- C) Google
- D) Netflix

37.

GI stands for:

- A) Global Indicator
- B) Geographical Indication
- C) General Information
- D) Goods Identification

38.

Which protects the visual appearance of a product?

- A) Patent
- B) Copyright
- C) Design right
- D) Trade secret

39.

Who can apply for a patent?

- A) Inventor
- B) Assignee
- C) Legal representative
- D) All of the above

40.

Patent examination request must be made within:

- A) 12 months
 - B) 24 months
 - C) 36 months
 - D) 48 months
-

UNIT 4 & 5 (Q41–Q75)

41.

Startup India was launched in:

- A) 2014
- B) 2015
- C) 2016
- D) 2017

42.

A startup must be less than:

- A) 5 years old
- B) 7 years old
- C) 10 years old
- D) 15 years old

43.

Maximum startup turnover allowed:

- A) ₹50 crore
- B) ₹75 crore
- C) ₹100 crore
- D) ₹150 crore

44.

Fund of Funds amount:

- A) ₹5000 crore
- B) ₹7000 crore
- C) ₹10000 crore
- D) ₹15000 crore

45.

Patent fee rebate for startups:

- A) 50%
- B) 60%
- C) 70%
- D) 80%

46.

Trademark fee rebate:

- A) 30%

- B) 40%
- C) 50%
- D) 80%

47.

Which scheme provides loans up to ₹10 lakh?

- A) Stand-Up India
- B) MUDRA
- C) SIDBI
- D) AIM

48.

Stand-Up India primarily supports:

- A) Exporters
- B) Women and SC/ST
- C) IT companies
- D) Government employees

49.

NASSCOM 10000 Startups started in:

- A) 2011
- B) 2012
- C) 2013
- D) 2014

50.

Freshworks is associated with:

- A) Startup India
- B) NASSCOM 10000 Startups
- C) MUDRA
- D) STPI

51.

STP stands for:

- A) Software Technology Parks
- B) Startup Technology Program
- C) Software Trade Policy
- D) Service Technology Parks

52.

STP was introduced in:

- A) 1985
- B) 1991
- C) 1995
- D) 2000

53.

SEZ Act was introduced in:

- A) 2001
- B) 2003
- C) 2005
- D) 2008

54.

SEZ stands for:

- A) Software Economic Zone
- B) Special Economic Zone
- C) Service Export Zone
- D) Startup Economic Zone

55.

Which body represents India's IT industry?

- A) BSA
- B) NASSCOM
- C) SIDBI
- D) SEBI

56.

ITES includes:

- A) BPO
- B) KPO
- C) LPO
- D) All of the above

57.

Microsoft is primarily:

- A) Service based
- B) Product based
- C) Manufacturing
- D) Government

58.

TCS is:

- A) Product company
- B) Service company
- C) Manufacturing company
- D) Startup

59.

Amazon is:

- A) Product only
- B) Service only
- C) Hybrid
- D) NGO

60.

The first component of a business plan:

- A) Financial plan
- B) Executive summary
- C) Marketing plan
- D) Vision statement

61.

Mission statement describes:

- A) Future goal
- B) Present purpose
- C) Revenue
- D) Competitors

62.

Vision statement describes:

- A) Present purpose
- B) Future aspiration
- C) Expenses
- D) Taxes

63.

Break-even point means:

- A) Maximum profit
- B) No profit no loss
- C) Minimum sales
- D) Maximum revenue

64.

P&L stands for:

- A) Profit and Loss
- B) Planning and Logistics
- C) Product and Licensing
- D) Process and Learning

65.

Cash flow statement tracks:

- A) Employees
- B) Cash movement
- C) Taxes
- D) Assets only

66.

Market analysis studies:

- A) Customers
- B) Competitors

- C) Trends
- D) All of the above

67.

Operational plan focuses on:

- A) Daily operations
- B) Legal issues
- C) Branding
- D) Patents

68.

Which company is service based?

- A) Adobe
- B) Google
- C) Infosys
- D) Apple

69.

Which is NOT ITES?

- A) BPO
- B) KPO
- C) LPO
- D) CPU

70.

AI and Machine Learning in healthcare are examples of:

- A) Traditional projects
- B) Latest IT projects
- C) Government projects
- D) Legal projects

71.

STPI mainly promotes:

- A) Agriculture
- B) Software exports
- C) Tourism
- D) Banking

72.

Which is an IT hub in India?

- A) Bengaluru
- B) Hyderabad
- C) Pune
- D) All of the above

73.

A startup should not be formed by:

- A) Innovation
- B) Splitting existing business
- C) Research
- D) New ideas

74.

Startup India provides:

- A) Fast-track patent examination
- B) Patent rebate
- C) Funding support
- D) All of the above

75.

Cloud computing is associated with:

- A) Emerging technologies
 - B) Agriculture
 - C) Mining
 - D) Manufacturing
-

UNIT 6 (Q76–Q100)

76.

Cybercrime involves:

- A) Computers
- B) Networks
- C) Digital devices
- D) All of the above

77.

Cyber fraud is primarily for:

- A) Entertainment
- B) Financial gain
- C) Education
- D) Research

78.

Unauthorized access to systems is:

- A) Copyright
- B) Hacking
- C) Trademark
- D) GI

79.

Cyber terrorism targets:

- A) Individuals only

- B) Critical infrastructure
- C) Schools only
- D) Books

80.

Cybercrime cost by 2025 is expected to be:

- A) \$5 trillion
- B) \$7 trillion
- C) \$10.5 trillion
- D) \$15 trillion

81.

Cyber attacks occur approximately every:

- A) 10 seconds
- B) 20 seconds
- C) 39 seconds
- D) 60 seconds

82.

India's primary cyber law is:

- A) IPC
- B) IT Act 2000
- C) DPDP Act
- D) Cyber Security Policy

83.

IT Act was enacted in:

- A) 1998
- B) 1999
- C) 2000
- D) 2001

84.

DPDP Act was enacted in:

- A) 2020
- B) 2021
- C) 2022
- D) 2023

85.

Section 420 IPC relates to:

- A) Fraud
- B) Murder
- C) Privacy
- D) Trademark

86.

Section 500 IPC relates to:

- A) Theft
- B) Defamation
- C) Hacking
- D) Piracy

87.

Section 354D relates to:

- A) Fraud
- B) Cyberstalking
- C) Copyright
- D) Taxation

88.

National Cyber Security Policy was launched in:

- A) 2011
- B) 2012
- C) 2013
- D) 2014

89.

Wireshark is:

- A) SIEM tool
- B) Network security tool
- C) Antivirus
- D) Database

90.

Nmap is used for:

- A) Network security
- B) Accounting
- C) Programming
- D) Taxation

91.

Metasploit is a:

- A) Forensic tool
- B) Penetration testing tool
- C) Antivirus
- D) Firewall

92.

Burp Suite is mainly used for:

- A) Web security testing
- B) Accounting
- C) Marketing
- D) Branding

93.

Autopsy is:

- A) SIEM tool
- B) Forensic tool
- C) Firewall
- D) Antivirus

94.

Splunk belongs to:

- A) Forensics
- B) SIEM
- C) Networking
- D) Penetration testing

95.

Colonial Pipeline attack occurred in:

- A) 2018
- B) 2019
- C) 2020
- D) 2021

96.

Colonial Pipeline attackers received:

- A) \$1 million
- B) \$2 million
- C) \$4.4 million
- D) \$10 million

97.

Equifax breach exposed data of:

- A) 50 million
- B) 75 million
- C) 100 million
- D) 147 million

98.

Main cause of Equifax breach:

- A) Insider threat
- B) Unpatched vulnerability
- C) DDoS attack
- D) Piracy

99.

Which is a cybersecurity best practice?

- A) MFA
- B) Regular patching

- C) Strong passwords
- D) All of the above

100.

Which emerging cybersecurity trend uses predictive analytics?

- A) Blockchain
- B) AI-powered threat detection
- C) FTP
- D) SMTP

Answer Key:

<u>Q</u>	<u>Ans</u>	<u>Q</u>	<u>Ans</u>	<u>Q</u>	<u>Ans</u>	<u>Q</u>	<u>Ans</u>
