

CA 4 – Final UI/UX Project Submission

Continue with the same **government app/website** selected in **CA1, CA2, and CA3**.

Task 1: High-Fidelity UI + Prototyping

Design a **full high-fidelity UI** with a complete interactive prototype in **Figma**. Create an **8-screen end-to-end user flow** using the same design system, visual language, typography, spacing, and interaction patterns developed in earlier CAs.

Task 2: UX Case Study Deck

Prepare a **10–12 slide professional UX case study** in **Figma**, that visually presents your complete design journey from **CA1 → CA2 → CA3 → CA4** as one continuous narrative. This should be a **design case study deck, not a theory PPT**. Keep content visual, concise, and structured.

Mandatory Deliverables

- 8 High-Fidelity UI Screens
- Fully Clickable Figma Prototype
- 10–12 Slide UX Case Study
- Linked Prototype Post/Submission Link

Marking Criteria

- **UI Design:** 20 Marks
- **Prototyping:** 15 Marks
- **Case Study:** 10 Marks
- **Linked Post:** 5 Marks

Deadline: 31 May 2026 (Sunday) – End of Day

Note:

- *No submissions will be accepted after 31 May, 12:59 PM, under any circumstances.*
- *All the work must be done in figma only*
