SECTION 40M83

ROLL NO. 16

REG. NO. 12316885

Income Tax e-Filing Portal
Simplified. Secure. Smart.

SLIDE 02

Executive Summary

Simplifying Tax Management. Empowering Every Citizen.

60%
Faster Filing
45 min → 18 min

89%
Task Completion
was 34%

4.6★
User Satisfaction
was 2.1 / 5.0

94%
Accessibility Score
was 52%

Mobile-First Design
Optimised for smartphones with touch-first interactions and one-handed navigation.

Smart Pre-Fill
Auto-populate from Form 26AS, AIS, and Form 16 reducing manual data entry by 70%.

Secure & Compliant
End-to-end encrypted, Aadhaar-linked e-verification with biometric authentication.

Inclusive Design
WCAG 2.1 AA compliant with multi-language support, high-contrast and screen reader modes.

Real-Time Status
Live tracking of refund status, notices, and demand with push notifications.

Unified Design System
Consistent component library built on Material Design 3 principles for scale.

SLIDE 03

Problem Statement

Critical usability failures in the existing Income Tax e-Filing portal.

67%
users abandon mid-filing

45m
avg. time to file one return

34%
task completion rate

2.1/5
user satisfaction score

Complicated Navigation
7+ nested menus to reach key filing screens. Users lose track of progress frequently.

Jargon-Heavy Language
Technical tax terminology without explanations confuses first-time filers and senior citizens.

No Smart Pre-Fill
Users manually re-enter data already available in Form 16 and government databases.

Non-Responsive Interface
Portal was designed for desktop only. Mobile users face broken layouts and tiny tap targets.

Slow Load Times
Average page load of 8.4s on mobile. Frequent session timeouts lose unsaved form data.

Poor Error Handling
Generic error messages with no guidance. 43% of errors require contacting helpdesk.

SLIDE 04

User Research

24 in-depth interviews · 312 survey responses · 4 focus groups

RK

Rahul Kumar

32 · Software Engineer · Bengaluru

Digital Native

"I just want to file my taxes in 15 minutes on my phone, not spend an entire Sunday on a laptop."

Goals

File returns quickly on mobile

Track refund status in real-time

Manage multiple financial instruments

Pain Points

Portal times out mid-form

Can't save and resume later

Confusing section 80C options

MD

Meena Devi

65 · Retired Teacher · Lucknow

First-Time Digital Filer

"I always need my son's help. Why can't it be as simple as paying a phone bill?"

Goals

Understand pension tax implications

Get step-by-step filing guidance

Verify documents easily

Pain Points

Technical jargon is confusing

Small text and poor contrast

Needs to call CA every year

Key Insights

78% file ITR from mobile but switch to desktop due to poor UX

91% want form data pre-filled from employer records

63% seek CA help purely due to confusing interface

85% would use portal more if it had a progress save feature

Research Method
User interviews, online surveys, contextual inquiry sessions, affinity mapping, and competitive benchmarking with 8 global tax portals.
